Building Integrity & Modeling Service

May 2011

Dear Elementary Parents,

We are strongly committed to seeing each student at CCA excel and reach his or her potential. Much learning goes on during the summer. We have found that if students continue to read over the summer and work on any areas that he or she might be weak in, there is a remarkable improvement in attitude, confidence, and performance. Of course, we always encourage getting outside, enjoying the outdoors, and learning more about our wonderful New England.

In light of this, we are asking all of our returning students to **read at least 8 or more books** over the summer. We are suggesting the reading of many of the great classics in literature that teach morals, traditional family values, and creativity. We have provided a Suggested Reading List which is located at the *Forms and Policies* link on our website. This list is by no means exhaustive or limiting. If you and your child would prefer to read other books not on the list, please feel free to do so.

Please keep a list of your child's books and pages read over the summer. A Reading Log is posted online as well. We would like the list turned in the first week of school. Each student will receive a special ice cream treat at the beginning of the school year for having met the minimum 8-book requirement. The top reader in each class will also share in a pizza party.

For the children's sake,

A handwritten signature in cursive script that reads "Alice Pinard".

ALICE PINARD

Principal
